**Driver expectations Vaughan Banner deliveries:**

1- Arrive at dispatch 30 minutes before depart time.
2- Pre trip trailer and tractor.
3- Verify trailer set temperature is aligned with product being delivered. (Chilled deliveries only)
4- Driver confirms he has a Power cord and it is plugged in. (Power Tailgate deliveries only)
5- Proceed to security Gate house.
6- Driver and security open trailer door.
7- Driver verifies load stability.
8- Driver verifies he has all required tools to complete his day. (Pump Cart, Two wheel dolly, electric jigger, straps, if required based on store restrictions)
9- Driver and security verify trailer number and last pallet on trailer to ensure correct load.
10- Driver seals the trailer and documents seal number on paperwork.
11- Driver proceeds to first stop.
12- Driver parks in designated unloading area. (Customer Dock, scissor lift, parking area if being offloaded by store forklift)
13- Driver documents arrival time at store on paperwork.
14- Driver documents reefer temp at time of arrival. (Chilled loads only)
15- Driver proceeds to receiving area and advises store he has arrived.
16- Driver and store receiver verify seal number and break seal.
**17- Driver assumes that he is to unload all customer skids from trailer to customer dock. Customer may offer to unload trailer, and this is fine, but driver must continue to perform all following steps.**
18- Driver may ask for assistance from store in moving heavy pallets from trailer to dock.
19- **Driver and receiver** verify Vaughan TU numbers Vs the driver records sheet. (All TU numbers being delivered to the store should be checked off on driver record once complete) If there is a discrepancy or missing TU, this TU number should be documented on the drivers POD.
20- **Driver and receiver** will load any empty pallets that were at store back onto trailer.
21- If driver can not pick up pallets from store due to having a scheduled Back Haul, driver is to show the store receiver the paperwork for the BH as confirmation, contact dispatch. Dispatch will either reschedule the Back Haul with another driver or will send in another local trailer to pick up pallets later that day.
22- Driver returns all tools back to trailer. (Pump cart, 2-wheel, electric jigger, straps)
23- Driver documents delivery completion time on paperwork.
24- Driver documents trailer temperature.
25- Driver and receiver seal trailer. Driver documents seal number on paperwork
26- Driver and customer sign Driver copy of paperwork and Customer copy of paperwork. Customer copy given to customer; driver copy retained by driver.
27- Driver exits dock and begins toward next stop location.
28- If driver is picking up a Backhaul after last stop, driver must confirm the set point of the reefer and set to that point.
29- Driver will record trailer temperature once arriving at BH Vendor.

30- Driver will contact dispatch if they have waited at a Backhaul for longer than 1 hour before being loaded, or if there are delays in the loading process of greater than 1 hour.
31- Driver will confirm that all tools of the job are returned to the trailer after being loaded at a BH.
32- Driver will verify load stability of loaded Backhaul.
33- Driver will confirm and record trailer temperature and setting at completion of BH loading.
34- Once driver returns to Gatehouse, driver and security will confirm trailer contents and trailer temperatures.
35- Driver will see shunt for direction on where to place trailer.(returns and tools to be stripped off if a door is available, if not shunt documents the trailer and backs in later to be stripped. If driver has a BH he will be directed to a staging area or dock door. If trailer is empty shunt will direct to a dock door or a trailer holding area.
36- Any temperature sensitive BH or returns on trailer will be added to temperature check list until off loaded.
37- Driver will return all paperwork into dispatch.

Assumptions.

1- Drivers are respectful, courteous and helpful when at a customer location.
2- Drivers are not using a cell phone, head set or ear bud device while on site at customer location at any time.
3- Drivers will wear all required PPE while at customer location.
4- Driver will always be present while his trailer door is open. If driver needs to use restroom, door is to be closed and receiver is to be notified that he is leaving temporarily.
5- Driver will never be confrontational or rude to a customer.
6- If driver is being harassed, bullied, or being treated poorly in any way while on site at a customer location, driver is expected to politely remove himself from the situation and contact dispatch immediately. (Cell phone is acceptable in these circumstances only) Driver will receive instruction on how to proceed with delivery from dispatch. (Continue if we can confirm driver will be ok to do so, or return the product to Vaughan)
7- Drivers will contact dispatch if they experience any delay that may put their delivery to store outside of customers delivery window. Once notified, dispatch will contact the stores involved to make them aware of a delay.
8- Drivers will advise dispatch of ANY accident or incident while on delivery.
9- Drivers will be fully trained on all equipment required to perform his role and all expectations of delivery.
